

Funding Home Visits

TITLE I

Title I dollars are the most widely used source of funding. Title I is designed to support schools with high percentages of students with low-income families. Title I can be used to fund PTHVs to help ensure families have the information they need to make informed decisions about their child's education. Remember, Title I must be used to supplement, not supplant any non-Federal funds that would otherwise be used for authorized Title I purposes.

TITLE II

Title II dollars can be used to support professional development that ensures that teachers are qualified and effective. PTHVs support teacher development by providing them the skills and knowledge needed to differentiate instruction and help students meet challenging academic standards. Remember, Title II must be used to supplement, not supplant any non-Federal funds that would otherwise be used for authorized Title II purposes.

TITLE III

Any LEA that receives Title III funding is obligated to inform families of Limited English Proficient children about ESL programming and how they can assist their child's progress. Title III funds can be used to implement PTHVs with current EL students and teachers who support them. Remember, Title III must be used to supplement, not supplant any non-Federal funds that would otherwise be used for authorized Title I purposes.

TITLE IV, PART A

Title IV, Part A – Student Support and Academic Enrichment provides funding to help provide students with a well-rounded education, safe and supportive conditions for learning, and effective use of technology. Districts must spend at least 20% of these funds on efforts to improve school climate or school safety, which includes effective parent engagement strategies such as PTHVs. Remember, Title IV must be used to supplement, not supplant any non-Federal funds that would otherwise be used for authorized Title IV purposes.

OTHER

Look for organizations that fund projects geared toward shifting mindsets, increasing family engagement, and implementing effective teaching strategies! The following are examples of potential funders:

- Other State and Federal Department of Education Grants (for example, Full Service Community School Grant)
- CARES Act Funding
- Local, State, and National Union Grants
- Local Educational Foundations
- Local, State, and National Foundations
- National businesses that have local offices (for example, Wells Fargo, State Farm, Target, etc.)
