

## Parent-Teacher Visit Continuum

### Phone Calls

When visits cannot take place in person or through electronic means, phone calls can help maintain healthy family-teacher relationships.

### Video/ Virtual Visits

Visits that involve video, including Zoom and other webinar platforms, phone video like FaceTime or Duo, or Skype or Google Hangouts offer the opportunity to connect more intimately when in-person visits are not possible.

### In-Person Visits

### Socially Distanced Visits

As schools look to reopen in the COVID-19 era, home visits can still take place but must observe safety protocols mandated by local health authorities.

### Traditional Home Visits

The core of the PTHV model aims to connect parents and teachers in a neutral setting off-campus to get to know one another and build trust over time.

Parent Teacher Home Visits does not make the determination as to whether a teacher can safely conduct home visits during the pandemic. That decision rests with their school districts and is based on COVID-19 guidelines and directives from local public health authorities.
